## In Focus: South Australian Alliance to End Homelessness (SAAEH) 2023-2025 Strategy

### Our Vision

Prevent, reduce and end homelessness in South Australia.

### Our Mission

Achieve our Vision through local collaboration and 'real time' data ensuring that incidents of homelessness are rare, brief and non-recurring.

### Our Shared Goal

By the end of 2025, 1 community in South Australia will have ended rough sleeping altogether and 2 communities will have achieved a subpopulation proof point.

### Our Approach

We recognise that despite the common misconception to the contrary, the scale of homelessness in South Australia is both preventable and solvable. We have worked through the Australian Alliance to End Homelessness to develop the Advance to Zero Methodology to help guide efforts to end homelessness in South Australia, based on what is working around the world and what we've learned from efforts so far in Australia.

### Our Values

- Belief
- Courage
- Commitment
- Innovation
- Collaboration
- Evidence-based
- Guided by the wisdom, lived and living experiences of people

to end homelessness

## Success looks like...

By the end of 2025:

- ✓ 1 community will have **ended rough sleeping**
- ✓ 2 communities will have achieved a **subpopulation proof point**
- ✓ 2 localised **action plans** will have been established for target Alliance regions, including Adelaide North, Country North and Country South
- ✓ 2 community **Advance to Zero projects** will have been established by target Alliance regions including Adelaide South, Adelaide North, Country North and Country South
- ✓ 18 **Plan, Do, Study, Act cycle**s will have been completed by established Advance to Zero projects including Adelaide South, Adelaide North, Country North and Country South
